

THIS IS AN APPEAL TO THE GENERAL PUBLIC

Jack Lingo Realty prospers in Delaware by taking advantage of the great economic opportunities in the state.

Unfortunately, Jack Lingo Realty chooses to ignore the fact that these opportunities are created by the hard working people of Delaware. Jack Lingo Realty has hired **Whayland Company Inc.**, who has in turn hired **Brothers Drywall Co. Inc.** to perform work on the new professional building located in Rehoboth Beach DE.

Companies like ^{BS} **Brothers Drywall Co. Inc.**, pay their workers significantly less than the area wage and benefit standards for Carpenters in Delaware and many of these contractors do not provide basic health care for their workers. Area standards have been established through years of collective bargaining and enable area trades workers to enjoy decent living standards, to patronize local businesses and to retire with dignity.

By contributing to the destruction of area standards, Jack Lingo Realty is demonstrating that it views Delaware as a mine for profits, without any regard for its workers or its economy.

Please contact Mr. Jack Lingo

and let him know this is not the Jack Lingo that Delaware needs or wants.
